WETLANDS WARNING: Do not ride through or in wetlands, streams, ponds, or wet meadows. Riding in wetlands is illegal and violators may be fined up to **\$10,000**. Wetlands provide critical wildlife habitat and protect our state's water quality. For more information, visit the New Hampshire Department of Environmental Services - Wetlands Bureau website at des.nh.gov/organization/divisions/water/wetlands/. **STAY LEGAL - STAY DRY.**

ATV Definition

In New Hampshire, an All Terrain Vehicle (ATV) is any motor-driven vehicle which has one or more low pressure tires (less than **10 psi**) designed to carry one driver and/or payload, weighing less than **1,000 lbs.**, and not exceeding **50** inches in width.

It is recognized that OHRV operation may be hazardous. Therefore, each person who drives or rides an OHRV accepts the dangers inherent in the sport and shall not maintain an action against an owner, occupant, or lessee of land for any injuries which result from such inherent risks, dangers, or hazards (per NH RSA 215-A:5-c).

REGISTRATIONS, ENFORCEMENT, & SAFETY

The **New Hampshire Fish & Game Department** is responsible for **OHRV registrations**, **OHRV safety education**, and is the primary **OHRV law enforcement** agency in New Hampshire. (Please note, all law enforcement officers in New Hampshire are empowered to enforce OHRV laws.) For questions regarding OHRV registrations and agent locations, OHRV laws, or OHRV Safety Education Courses, please contact the New Hampshire Fish & Game Department (contact information below).

Current New Hampshire registration fees: Resident ATV - \$55.00; Resident trail bike - \$46.00; Non-resident ATV - \$74.00; Non-resident trail bike - \$65.00. Funds from registrations are used to build and maintain OHRV trails in New Hampshire.

Reciprocity with other states: There is currently no reciprocity between **Vermont, Maine, Massachusetts**, and New Hampshire. Non-residents must register their OHRV within the state they wish to ride.

LANDOWNERS AND LAND USERS

The majority of public OHRV trails in New Hampshire have been established on private land. Public use of private land is a privilege, not a right. It has been a long-standing New Hampshire tradition for landowners to allow their property to be used by the public for recreational pursuits. Abuse of this privilege threatens the continuation of this tradition. In order to preserve this tradition of land access for future generations, it is in the interest of all recreational users to do their part to work with and respect each other, and to care for the land and respect the landowners. Remember, you are a guest of the landowner. Communicate, cooperate, and be respectful to the land and its owner. Without them, YOU won't get far.

Landowner Permission Requirements: The NH Bureau of Trails and volunteer trail clubs have obtained landowner permission to maintain the public OHRV trail systems listed on this flyer. If you are not legally operating on any of these trail system or on your own property, you are required (per NH RSA 215-A: 29, XI) to have written landowner permission to do so. You must then carry the written permission with you while operating. This applies to private, town, state, and federal lands.

OHRV use on public roads is prohibited. Only municipal roads that have been designated and signed open for public OHRV use are legal to ride. Use of town roads require permission from the municipal governing body. This includes unmaintained (Class VI) town roads. Check with the local town office or trail club. If in doubt, stay off the road.

Loud ATVs and trail bikes are one of the primary reasons for trail closures. In New Hampshire, the exhaust of ATVs and trail bikes cannot emit noise in excess of 96 decibels. It is illegal to modify an exhaust system that increases the noise level. **Less noise = more trails.**

Winter ATV Use: Use of snowmobile trails by ATVs is at the discretion of the landowner. Some designated summer ATV trails are closed during winter months. Many of the designated snowmobile trails in New Hampshire State Parks and Forests, and in the White Mountain National Forest, are open for winter ATV use, with sufficient snow cover and when the trail is being maintained and groomed for winter travel. **When in doubt, contact the local ATV Club, Snowmobile Club and/or the NH Bureau of Trails.**
