This "Camp Lot License Agreement" (the License), effective as of August 1, 2024, is made and entered into between the State of New Hampshire acting through its Department of Natural and Cultural Resources, having a mailing address of 172 Pembroke Rd, Concord, New Hampshire, 03301 (the "State"), and **Robert D Landry** with an address of **35 Stone Rd, Gilmanton NH 03237** ("Licensee") and **Nicole E. Landry** with an address of **252 Merrymeeting Rd, New Durham NH 03855** (Co-Licensee)

WITNESSETH

Whereas, the State is owner of Umbagog State Park (the "Premises"), located in the Town of Errol, County of Coos, and State of New Hampshire; and

Whereas, lands acquired from James River Timber Corporation and Oxford Paper Company (Boise Cascade Corporation) in 1992 were added to Umbagog State Park and contained within their bounds ten (10) existing lease lots (each individually referred to as "Licensed Site") on which are located privately owned camps; and

Whereas, it is recognized that these camps have historically been an intrinsic part of the Premises, landscape and culture of the North Country, and contribute to the local economy; and

Whereas, on December 16, 2010, George M. Bald, Commissioner of the Department of Resources and Economic Development, revised the License as follows:

- Eliminated the overall license termination date of June 30, 2044;
- The camp may be sold at any time to members within the "immediate family," but not owned by more than two (2) individuals at any one time. Immediate Family, for the purposes of this license shall mean father, mother, step-parent, child, step-child, sibling, spouse, grandparent, or grandchild;
- For any sale outside the immediate family, the State of New Hampshire shall have the "right of first refusal";
- For any sale outside the immediate family, the US Fish and Wildlife Service ("USFWS") shall have the "right of second refusal" in the event that the State of New Hampshire does not exercise its right of first refusal;
- No "Association" camps shall be allowed; and
- License terms and renewals shall continue to be five (5) year increments, subject to the approval of the Attorney General and the Governor and Executive Council.

Whereas, the Licensee is the owner/Licensee of a camp that was in existence on the Premises on July 29, 1992, the date of the State's acquisition;

Now therefore, in consideration of: safeguarding the natural resources of the Premises, maintaining a natural and remote character, forest setting, assuring safety of the general public and the Licensee, preventing urbanization of the Licensed Sites, and the annual rental hereinafter specified, the State hereby licenses the Licensee to use Camp Lot ID #: **U-BC-06**, subject to the following terms and conditions:

1. DEFINITIONS: As used herein the following terms shall have the following meanings:

2. TERM / RENEWAL: The term of the AGREEMENT is through July 30, 2029, unless sooner cancelled or revoked as provided herein. **Forty-five days prior to the expiration of said term, if the LICENSEE is not then in default, the STATE shall deliver a new AGREEMENT to the LICENSEE for a successive five (5)-year term, subject to approval by Governor and Council. The LICENSEE must execute and return the new AGREEMENT within thirty days from the date of the cover letter with the new agreement, or the AGREEMENT may terminate, and the STATE may proceed to take back the LICENSED SITE in accordance with Section 10.**

3. RENT payments and the "contact information update form" not received by August 31 shall be considered overdue, subject to a \$25.00 late-payment charge, and such late payment is just cause for cancellation of the AGREEMENT.

The LICENSEE shall pay, in addition to any other payments provided hereunder, the full amount of real and personal property taxes levied against the LICENSED SITE as a consequence of the application of RSA 72:23 I, which provides for taxation of certain STATE properties used or occupied by persons or entities other than the STATE.

All taxes assessed on the RECREATION RESIDENCE and improvements, including water supplies and septic systems, shall be paid by the LICENSEE.

Failure of the LICENSEE to pay the duly assessed real and personal property taxes when due shall be cause to terminate the AGREEMENT by the STATE. The foregoing shall not deprive the LICENSEE of the right to contest or review all such taxes by legal proceedings or in such other manner as may be suitable.

4. USE AND OCCUPATION OF LICENSED SITE: The LICENSEE shall be permitted to cross the PREMISES and to enter, occupy and use the LICENSED SITE for a RECREATION RESIDENCE for personal recreational use and related purposes acceptable to the STATE. The LICENSEE and all persons using the LICENSED SITE with the consent of the LICENSEE shall comply with all laws and regulations of the State of New Hampshire governing State forests and State parks and all Federal, State, County and municipal laws, ordinances or regulations which are applicable to the area or activities covered by this AGREEMENT.

ATV's and/or UTV's are allowed only on designated trails. ATV's and/or UTV's are prohibited on all other portions of the PREMISES. This LICENSE does not convey any additional right for the LICENSEE to use ATV/UTV anywhere else on the PREMISES.

The STATE reserves the right to close, lock, gate, or otherwise restrict access along, through, or over roads at any time during periods of saturated road conditions or high fire danger, when forest operations make traveling hazardous in the opinion of the STATE, or for other safety, health, or environmental purposes deemed necessary by the STATE.

The RENT received by the STATE is for the use of the LICENSED SITE only and is not to be construed as providing the LICENSEE with any greater rights of access over the PREMISES than is provided to the general public, or to create any greater obligation on the part of the STATE to provide access beyond that obligation to the general public. The RENT received from the LICENSEE is not considered as payment of a fee to use the roads accessing the LICENSED SITE.

The LICENSEE agrees that it travels over the roads and land of the STATE at the LICENSEE's own risk. The LICENSEE shall indemnify, hold harmless, defend and reimburse the STATE from and against any and all claims, actions, suits, damages, liabilities, costs or expenses, including reasonable attorneys' fees, of any kind or nature whatsoever on account of injuries to or death of any person or damage to property arising out of the travel of the LICENSEE over the PREMISES.

6. STRUCTURES, ALTERATIONS, AND OTHER CONDITIONS: The LICENSEE shall comply with each, and every condition set forth below. Where the conditions here differ from the requirements of a governmental jurisdiction, the more restrictive shall apply. The LICENSEE shall not construct or establish any building or perform other improvements to the LICENSED SITE without the prior written consent of the STATE. The LICENSEE has sole responsibility to obtain all necessary permits at its own cost and expense from any governmental authority to place, construct, or maintain any buildings or other improvements on the LICENSED SITE.

The STATE shall, at any time and in its sole discretion, have the right to make reasonable changes in or additions to these conditions, and any such changes or additions shall, upon written notice to the LICENSEE, become part of the AGREEMENT.

A. Improvements: Any new building, accessory structure, renovation, reconstruction, expansion of an existing improvement, or other improvement constructed or placed upon the LICENSED SITE shall conform to all applicable laws and regulations and be subject to the approval process described in Paragraph 6B and 6C

Minor maintenance involving repairs in-kind resulting in no effects to the natural resources and no changes in the dimensions, footprint (see definition), or profile of the structure shall not require approval from the STATE. In addition, alterations to the interior of a structure do not require approval from the STATE.

B. Improvement Approval: The LICENSEE shall obtain written approval from the STATE prior to any construction, reconstruction, or placement of permanent buildings or other improvements of any kind on the LICENSED SITE. The STATE shall not give such consent until the LICENSEE has supplied detailed improvement plans including the following:

- a. A statement of intended use,
- b. Dimensioned sketches showing plan views documenting existing footprint (see definition) and profile views of all existing structures on the LICENSED SITE,
- c. Dimensioned sketches showing plan and profile views of the proposed improvements,

At the time of request, the STATE reserves the right to require the LICENSEE to make upgrades to the camp, including installing State approved sanitary waste and gray water systems (see Section 6.F), in order to bring the LICENSED SITE into full compliance with the AGREEMENT.

The STATE may impose reasonable conditions on its approval of the proposed project in order to meet the criteria of this AGREEMENT.

Once the STATE approval has been granted, any local, County, State or Federal required permits must be obtained, and a copy forwarded to the STATE for record keeping.

Failure to undertake the proposed activities in accordance with the approvals under this paragraph and all applicable laws and regulations shall constitute a default under the AGREEMENT.

- C. Development Criteria: The State may approve the proposed improvement provided that it meets the above standards and otherwise meets, in the State's sole judgment, these development criteria:
 - a. Compatible with the natural surroundings;
 - b. Unobtrusive on the landscape;
 - c. Unless grandfathered, the footprint (see definition "m" above) of all structures shall not exceed: 1,000 square feet in area as measured from the drip-edge, one and one half (1&1/2) stories (inclusive of an attic or loft) with a single pitch to center ridge roof, and 25 feet in height (excluding chimneys and stove pipes). If existing improvements exceed such dimensions, there shall be no further expansion or new improvement resulting in an increase in size. - m. Sanitary Waste and Gray Water Disposal: All sanitary waste and gray water disposal systems existing on or before July 1, 2004, shall be considered grandfathered for purposes of the terms of the AGREEMENT. This does not imply that they are in compliance with existing laws. The failure of any such system after January 1, 2004, shall be subject to municipal, County, State and Federal permit requirements. Failure to immediately begin repair of the failed system, or failure to remove without intent to replace in-kind, shall constitute a default under the AGREEMENT. All proposed additions or new sanitary waste and gray water disposal systems must be approved in writing by the State and by the Department of Environmental Services and must comply with municipal, County, State, and Federal permit requirements. However, no future drains, sewers, or wastewater outlets that empty upon the surface of the ground or empty into any pond, bog, stream, or open water on the PREMISES shall be allowed.

Removal of dead or hazardous problem trees from the LICENSED SITE shall be coordinated with the STATE's representative and accomplished at LICENSEE's expense. The LICENSEE may immediately remove blow-down trees and debris blocking open roads or driveways, or that present an immediate danger to human safety or hazard to structures or improvements on the LICENSED SITE, with timely verbal follow-up notification to the North Region Forester, or their designee, in Lancaster at (603) 788-4157.

However, under no circumstances will the existence of such mortgage or encumbrance diminish or alter any of the rights of the STATE hereunder, particularly with reference to termination of the AGREEMENT. Any mortgagee or creditor of the LICENSEE shall be limited to the same rights of the LICENSEE, which shall not be in any way enlarged or altered by the existence of the mortgage or encumbrance and shall explicitly state its subordination to the rights of the STATE.
