

Discover the Power of Parks Program- July

Nature Walk and Talk

Short and fun half-hour walks around the peak of the mountain. You may see chirping chipmunks, soaring hawks, or even slithering snakes!

Fire Tower Fun

Before you climb up the park's fire tower, learn the history of these humble yet extremely important structures. Did you know that there's a fun NH quest associated with them? Learn all about it here!

Up in the Air

Do you like to watch clouds? Did you know that there are different types of clouds, which occur with certain types of weather? Learn the names of clouds and what weather they predict in this fun interactive program!

Shadows and Silhouettes

Even if a bird is high up in the sky, or hidden in the shadows, you can still identify it! Memorize the shapes and outlines of common birds, so you can find them on your walks!

Avoid Bear Scares!

Bears. They're all over the woods, in our park logos, and increasingly, in human neighborhoods. Learn some tips on how we can safely coexist with bears!

Wildlife CSI

Who broke into the honey shed? And who chewed up the wood fence? Solve these wild crimes using clues like tracks and scat, and learn how to be an animal detective!

Minerals Rock!

New Hampshire isn't called the Granite State for nothing! Come learn about granite, along with quartz, mica, and other rockin' rocks!

Let's Bee Friends Forever!

Bees, butterflies, hummingbirds, and even wasps work hard to keep New England's flowers pollinated. But what exactly is pollination, anyway, and why is it so important? Come find out!
