

Discover the Power of Parks Program- August at Pillsbury State Park

Pond Pals

Humans aren't the only ones who love swimming! Come learn about the various critters-from little snails and salamanders to great big herons-that hang out around here too!

Marvelous Migration

Every year, millions of animals-from birds to butterflies-embark on a journey known as *migration*. But why? And how do they make it to their destinations? Come find out what it's like to be part of a flock!

Let's Bee Friends Forever!

Bees, butterflies, hummingbirds, and even wasps work hard to keep New England's flowers pollinated. But what exactly is pollination, anyway, and why is it so important? Come find out!

Up in the Air

Do you like to watch clouds? Did you know that there are different types of clouds, which occur with certain types of weather? Learn the names of clouds and what weather they predict in this fun interactive program!

Legends of the Abenaki

Hear authentic tales from the Abenaki, New Hampshire's original stewards, and how the morals of these tales are still relevant today!

Going Batty!

Some find them scary, others cute, but one thing's for sure: bats are amazing! Learn about bat species found here at Pillsbury, the challenges they face, and how they help humans!
