EXPLANATION

The Department's authority to enter into Grant-In-Aid agreements with non-profit snowmobile clubs is outlined in RSA 215-C:39, VII (b). These grant agreements are for aiding the clubs in the maintenance and development of snowmobile trails and the purchase and refurbishment of trail maintenance equipment.

The Attorney General's office has approved the attached sample agreement as to form and substance and will approve the actual agreements as to execution. Copies of these agreements are available at the Department's Bureau of Trails.

While many of the grant agreements are not above the \$10,000 limit requiring approval by the Governor and Executive Council, there is the potential for additional grants to be awarded to these clubs during the same Fiscal Year putting grantees over said limit.

Respectfully submitted,

Concurred,
