Re: Profile Lake Walkway Project

Dear Mr. Adams :

I am writing to provide New Hampshire Department of Transportation's support for the Profile Lake Walkway Project being pursued by the Old Man of the Mountain Legacy group. Much of the proposed walkway falls within the right-of-way of the Franconia Notch Parkway. We have met with the group and the Department of Resources and Economic Development (DRED) to review the proposed walkway project and will continue to coordinate through the development of the design and construction.

As your Department takes up the permitting for this project, know that NHDOT supports the project and approves the proposed use and location within the Parkway right-of-way. We will be working with the proponents and DRED to develop an encroachment agreement or MOA to permanently document the arrangement.

If you have any questions, please don't hesitate to contact me.

Sincerely,

William J. Cass, P.E.
Assistant Commissioner
