

Discover the Power of Parks Programs

Explore Pawtuckaway

A welcome table located at the main office focusing on the attractions, nature, and activities of Pawtuckaway State Park.

Ponding

A Drop-In program located at the footbridge in between the beach and park store. Participants can catch pond critters with provided nets and then try to identify what they caught using a dichotomous key.

Tree Walk and Talk

Come on a short walk to learn lesser known information about the trees of our community. Discussions will include ecologic behavior as well as historical uses of trees.

Birding

Accompany Ranger Matt on a walk about all things birds! As a bird nerd in training, I need YOU to support me, as we learn to identify birds through their calls and occasions we see them.

Local Animals

Tabling activity with Furs/pelts about the animals we see in and around Pawtuckaway State Park.

Critters after Dark

Come on a short walk around the park store area to hear and hopefully spy nocturnal animals! We will also do some activities about nocturnal senses like sight, hearing, and smell.

Geologic History Tour

Accompany Ranger Matt for some whiteboard drawings and a short walk to learn more about the rocks and natural processes of Pawtuckaway State Park.

Local History Station

A Tabling program focusing on the history of inhabitants of the area before and after colonialism.
