

Update May 29, 2019

Bear Brook State Park Management Plan Steering Committee
Public Listening Session
NH Fish and Game Department
11 Hazen Drive, Concord NH
June 27, 2019, 5:00 – 8:00pm

The Department of Natural and Cultural Resources and the Bear Brook State Park Management Plan Steering Committee is holding a public listening session to hear opinions from local and state-wide associations and organizations, recreational clubs, forestry and wildlife professionals and citizens on the current management of the property, existing uses, and desire and suitability of new uses at Bear Brook State Park.

Format

1. Presentations by local and statewide associations/organizations, clubs or professional organizations shall be limited to 10 minutes.
2. Presentations by individuals shall be limited to 5 minutes.
3. Presenters are requested to prepare a written summary of their presentation and submit it to the committee.
4. Public comment will be held after the last pre-registered speaker has presented.

Presenters must sign up to speak by noon on June 19th by contacting Johanna Lyons at Johanna.Lyons@dncr.nh.gov or 603-271-3935.

The following questions are provided to assist in presentation development, however additional information and comments are welcome;

1. What is working well at the park?
2. Does your organization have any concerns about existing recreational uses or natural resource management practices?
3. Is there a need for improvements or additional facilities for existing uses? If so, for what purpose, and where?
4. What potential new activities/management would your organization like to see implemented? How and where?
5. What facility improvements or additional facilities would be needed/desired to support this new activity and where should they be located?
6. What conflicts with existing uses/users might result at Bear Brook State Park if the new activity was permitted? What other uses can your activity best be paired?
