

DNCR Volunteer Program Individual COVID-19 Screening Questionnaire

DNCR Volunteers must be screened each time they volunteer on a DNCR managed property as outlined in the Universal Guidance for All New Hampshire Employers and Employees. Individuals within a group of 2-6 people must complete this questionnaire each time they volunteer. Completed screening questionnaires must be returned to the Volunteer Program Manager by mail or email. Please respond to the following questions by circling 'YES' or 'NO':

Have you been in close contact with a confirmed case of COVID-19?		No
Have you had a fever or felt feverish in the last 72 hours?		No
Are you experiencing any respiratory symptoms that include a runny nose, sore throat, cough, or shortness of breath?		No
Are you experiencing any new muscle aches or chills?		No
Have you experienced any new change in your sense of taste or smell?		No

Volunteers performing trail maintenance do <u>not</u> need to have their tempatures taken on-site. Normal temperature should not exceed 100.00 degrees Fahrenheit. <u>If you answered 'YES'</u> to any of the screening questions or have a fever go home and seek medical advice. <u>DO NOT Volunteer</u>.
